Kossi Mawuena Baboh

Email: mawuenakossibaboh@gmail.com | Phone: +233 20 945 6823

Professional Summary

Aspiring and adaptable web developer with a strong foundation in web technologies, complemented by a robust educational background in software engineering. Skilled in creating efficient and user-friendly web applications, with hands-on experience developing an e-commerce platform, a URL shortener with AI capabilities, a LinkedIn post generator, and a hotel room booking page. Committed to continuous learning and delivering impactful solutions.

Technical Skills

- **Languages & Frameworks**: HTML, CSS, JavaScript, React, Node.js, TypeScript, Express
- **Tools & Platforms**: MongoDB, PostgreSQL, Redis, Git, REST APIs, Redux Toolkit, Zustand, TailwindCSS, Vite
- **Project Management**: Agile methodologies, version control (Git)
- **Other Skills**: Quick adaptability to new technologies, excellent problem-solving abilities

Work Experience

Facilitator

Edu-Lead Community School (May 2024 – Present)
- Developed and integrated lesson plans that leverage technology to enhance learning experiences.
- Supported and mentored students, fostering critical thinking and creativity.
- Collaborated with educators to design interdisciplinary content.

Cashier/Customer Service

WINGA Bet Limited (June 2022 – July 2022)
- Delivered excellent customer service by providing detailed information and assistance.
- Handled financial transactions with precision and adherence to regulatory standards.
- Resolved customer queries promptly to ensure satisfaction and repeat business.

Facilitator

Abundant Grace International School (January 2020 – February 2022)
- Designed interactive lessons integrating technology tools for better engagement.
- Managed classroom environments to promote effective learning.
- Coordinated extracurricular programs to develop students' holistic skills.

Projects

- **E-Commerce Website:** Designed and deployed an online shopping platform, including product management and payment integration for seamless user transactions.
- **AI-Enabled URL Shortener**: Built a URL shortening service with AI-based analytics to

provide insights into link performance.
- **LinkedIn Post Generator**: Developed a tool that automates content generation for professional social media posts, streamlining user engagement.
- **Hotel Room Booking Page**: Developed a responsive front-end booking page using HTML and CSS, enabling users to check room availability.
